

## Kendra Halliday, Co-Owner

The Wellness Experience specializes in a range of CBD-infused products designed for various purposes, including recovery, recreation, beauty, pet care, and overall wellness..

*We serve as a catalyst to  
elevate your wellness.*

As Founder and Co-Owner, my vision for the Wellness Experience is two-fold. I focus on educating the community, families, and friends regarding the multitudes of wellness options that will restore their sense of balance to get them back to their best selves.

Secondly, I am pleased to offer high-quality and affordable Wellness products coupled with solutions that will allow customers access to alternatives to elevate their wellness. Serving years as a leader within the corporate industry has allowed me to share my acquired knowledge and skillsets in Strong Leadership, Customer Management, Operations, and Diversity Inclusion.

Ultimately it enables me to narrow my focus to unleash and "Elevate" health and wellness potential for the people we serve.
